<b>Created By</b>	Alexander Holmes Stone Mountain High School, DeKalb County School District
<b>Title of Activity</b>	The Industrial Revolution as a Socioeconomic Turning Point: The Rubber Market Trade & King Leopold II’s Congo Free State
<b>Overview</b>	This activity explores the transformative nature of the Industrial Revolution as a socioeconomic turning point due to European imperial state expansion and how environmental factors contributed to the development of the global economy. This activity zooms in specifically on the Belgian Empire’s state expansion within the Congo Free State under King Leopold II due to the rubber trade and the socioeconomic impacts it had on the Congolese people. The activity utilizes primary source photographic images, a primary source document, a secondary source map, a secondary video documentary source, and a secondary political cartoon source.
<b>Essential or Investigative Question</b>	How was the Industrial Revolution a socioeconomic turning point for World History, specifically through the lens of the imperialized Congo Free State and the global rubber market trade?
