

### **Our Mission**

CASA of Troup County, Inc. advocates for the best interests of abused and neglected children within the court system. Our belief is that every child is entitled to a safe, stable, and permanent home. We provide screened, trained, and supervised volunteers who speak for the needs of these children, one child at a time. CASA works in collaboration with key agencies, a guardian ad litem, and community resources to achieve the child's best interests. CASA ensures that dependency children have a voice in court.

### **What is a CASA?**

- Volunteer that speaks up for abused and neglected children – BE THEIR VOICE
- Change that child's story
- Be a constant and consistent presence for a child in foster care
- Connect with the child and advocate for their best interests

Today a CASA Volunteer changed a child's life. Today a CASA Volunteer visited with a child who felt worthless and alone. Today a CASA Volunteer spoke with a child who felt they had no future. Today a CASA Volunteer listened, offered support, and made a child feel wanted and special for the first time. Tomorrow, the CASA Volunteer will do it again.

Please visit the link below and become a CASA of Troup County Volunteer and help to "Change A Child's Story".
